

## **What You Should Never Say to a Woman**

(including your girlfriend, wife, sister, mother, daughter)

Relax.

Pull yourself together.

Calm down.

I already told you I love you, why do you keep asking?

I told you so.

Keep a stiff upper lip.

Maybe that's what you heard, but it's not what I said.

You don't understand.

You don't want to know what I'm thinking right now.

It's not a competition.

I'll get to it when I get to it.

What will you do when I'm not around?

What's there to talk about?

Worse things happen at sea.

You have no sense of humor; seriously.

Get over it.

Pain is just weakness leaving the body.

Who taught you to...[anything]?

Stop complaining.

You have the brain of an ant.

You make such a big deal about everything.

You shouldn't feel that way.

If you think it's worth it then I guess it must be worth it.

Plenty more fish in the sea.

Whoa, you're so sensitive.

Why can't you think?

You're just torturing yourself for no reason.

You're dead wrong.

Get a grip.

No pain, no gain.

Tough luck.

You look fine, it's not like you're the center of attention anyway.

Chin up.
